

typing and editing on the manuscript. Thanks to Martha Gregg, Marylin Elam, Chloe Tyler, Shirley Toll, and Barbara Groessl. Thanks to Kay Weber and Don Prys for their inspired scientific illustrations. And most of all I am deeply grateful to Pastor Jeffrey Cotter, Pastor Gerald Lambert, and the entire congregation of the Santa Ynez Valley Presbyterian Church for their encouragement and prayers. That support has made this book a work of joy and fulfillment.

The editing assistance of Etta Wilson and Larry Stone at Thomas Nelson together with help at home from Cindy Piper, Maggie Le Pley, Harry Hollins, my wife Georgia, and daughters Allison and Joni is beyond measure.

Last of all, I wish to thank Peter Gillquist, the senior editor at Thomas Nelson. What a miracle to find, upon submitting the manuscript to Thomas Nelson in Nashville, Tennessee, that he lives and works only forty minutes from my cattle ranch in California. Praise the Lord for you, Peter, and for your guidance.
